

## ProCSI 2014 Feedback

Each student was asked three questions:

1. What was your favorite thing/activity from ProCSI?
2. What was your least favorite thing/activity?
3. If you were in charge of ProCSI, what would you change?
4. Other comments/suggestions

Here are the students' responses:

Name

### Sarah

1. WEMPEC Lab tour or Sector67
  - a. Cool to take apart parts and put into gas vehicle
  - b. Finding out that people use spare parts/scrap and create new things or fix things
2. Tour of the Discovery Building
  - a. Kind of boring, not much to see.
3. More hands-on activities, more challenges for the people who want it. But then again, not everyone has been to an engineering camp before.

### Vicky

1. Sector67 or Bridge building/egg drop activity
  - a. My kind of place. Has the whole crazy "do whatever you can imagine" kind of vibe
  - b. I like those kind of brain games
2. Camp Randall Stadium Tour
  - a. I'm not really interested in that kind of stuff
3. I would move the Katelyn's talk to the morning instead of right after lunch

### Kendall

1. Camp Randall Tour and Driving Simulator
  - a. I'm addicted to sports and I really loved everything that was in the building. Being on the field was amazing.
  - b. Even though it was off from real life, it was nice because I'm about to start driving and you're able to picture how it is. You can imagine the different distractions that exists out there. You have to learn how to cope on it in real life.
2. Katelyn, State Capitol, A little bit of sector67
  - a. Too technical and too in depth
  - b. Tour guide was not enthusiastic
  - c. Too Messy
3. I would add a day where the group goes to the gym or something, or a sporty-kind of game. A little more free time. Cut Katelyn out.
4. You guys are really cool, and we are thankful for being such great people.

### Donovan

1. Camp Randall, Flight Simulation, Admissions Information and Tour and Student Panel
  - a. These tours makes me want to come to Madison even more.
  - b. I got to answer all my questions I had about college and college life. When you asked counselors, you're not sure if you're getting the truth.

2. State Capitol Tour
  - a. I liked going to the top of the building, but everything else was kind of boring
3. I like how everything was scheduled and planned out. Just a little bit more free time. After the panel do some sports or something.

**Amanda**

1. Physics Museum, Driving Simulator
  - a. Cool to see the different things of how things work, especially the shocking machine
  - b. It was cool that we get to drive a real car, and I never driven a car before.
2. Katelyn
  - a. We had lunch before the presentation, so I was very sleepy.
3. More hands-on activities to do and less lectures.

**Rikki**

1. Campus Tour, Minority Student Panel, Katelyn
  - a. Nice to see more about the campus, and get a real perspective from actual students.
2. State Capitol Tour, TRACE Lab
  - a. Tour guide was not enthusiasm
  - b. No enthusiasm, Stuff was interesting, the people did not make it interesting
3. More hands-on activities, computers and engineering stuff
