

# ProCSI 2015 Feedback

The students were asked the following questions:

1. What was your favorite thing/activity from ProCSI?
2. What was your least favorite thing/activity?
3. If you were in charge of ProCSI, what would you change?
4. Other comments/suggestions

Here are the students' responses:

## Question 1

- Food!
- My favorite part of ProCSI was the different labs and what majors did each lab. I also liked the Panel discussion. That we were able to talk to the students and ask questions.
- Getting free food and having access to the car simulator
- The simulators
- My favorite thing from ProCSI was meeting and getting to talk to everyone like the high schoolers and the college students.
- Flight simulator and of course the food.

## Question 2

- Walking
- Friction Stir Welding lab
- My least favorite thing was walking to the Capitol. Even though I enjoyed the city and the Capitol building, the walking killed me a bit, but I still had fun
- The SBEL Modules
- Walking

## Question 3

- Nothing!
- Have the activities and advertisements focused more on the activities within the lab rather than the engineering schools in general
- Try to include more areas of engineering
- I would change the amount of walking that we did and use the bus system
- The curfew. Instead of 11 lights out 12 lights out

## Question 4

- It was really fun and interesting!
- I would like to thank everyone who helped and went through the week with us. You are all amazing for putting up with a group of teenagers. I hope I can see you all again. Thank you.
- I loved this program.
